**PEROBELL
CLASSICS**

A Luis Ignacio Sánchez,
alma máter de Perobell.

Perobell is a
promise of
comfort,
softness,
and quality.

^{EN} Would you like to attend a live Beatles concert? Read the fourth installment of Millennium written by Larson? Listen to Queen's 2021 album? Some classics are condemned to live only in our memory.

Fortunately, others receive the gift of a second chance and come back to life with the unstoppable energy of those who have crossed borders sailing through storms and calm seas, and have survived. They are privileged travelers whom time has allowed to pass without touching them. They return as vigorous and attractive as at the beginning of their journey.

This is PEROBELL, which reappears as brilliant and powerful as the brand associated with the history of Spanish design has always been. The mythical firm of upholstered seats returns from the hand of one of its founders who participated in its creation back in 1978. As commercial director and responsible for the image and product of the firm, he has accompanied the ups and downs of PEROBELL from the beginning, being the most visible face at trade fairs, cultural events and company management. Now, it is the guarantee that the company recovers its essence to offer it to a market that likes high-level timeless designs.

As always, behind PEROBELL there is a cast of designers who forged the legend of an unforgettable catalogue: Pensi, Lievore, Rifé, Codina... the authors of an unbeatable repertoire of classics that re-equip 21st century environments. Premier, Chocolate, Protos... are names that are part of the design history of this country. That traveled beyond our borders to seduce lovers of contemporary interior design from all over the world.

Why now PEROBELL? Because behind a great brand there are people. And circumstances, difficulties, joys... but, above all, there is a background of illusion deposited in each piece with the little red label. The pride of a way of understanding design that goes through production quality and seriousness of service. A classic returns. PEROBELL returns.

Marcel Benedito

ES ¿Te gustaría asistir a un concierto de Los Beatles en vivo? ¿Leer la cuarta entrega de Millenium escrita por Larson? ¿Escuchar el álbum 2021 de Queen? Algunos clásicos están condenados a vivir únicamente en nuestra memoria.

Afortunadamente, otros reciben el don de una segunda oportunidad y vuelven a la vida con la energía imparable de quienes han atravesado fronteras navegando con tormentas y mares en calma, y han sobrevivido. Son viajeros privilegiados a los que el tiempo ha dejado pasar sin tocarlos. Vuelven tan vigorosos y atractivos como al principio de su trayecto.

Así es PEROBELL, que reaparece tan brillante y poderosa como siempre ha sido la marca asociada a la historia del diseño español. La mítica firma de asientos tapizados vuelve de la mano de uno de sus fundadores quien participó en su creación allá por 1978. Como director comercial y responsable de la imagen y producto de la firma, ha acompañado los avatares de PEROBELL desde el principio, siendo la cara más visible en ferias comerciales, eventos culturales y gestión de la compañía. Ahora, es la garantía de que la empresa recupera su esencia para ofrecerla a un mercado que gusta de diseños atemporales de alto nivel.

Como siempre, detrás de PEROBELL hay un elenco de diseñadores que forjaron la leyenda de un catálogo inolvidable: Pensi, Lievore, Rifé, Codina...los autores de un repertorio de clásicos imbatible que vuelve a equipar los entornos del siglo XXI. Premier, Chocolate, Protos... son nombres que forman parte de la historia del diseño de este país. Que viajaron más allá de nuestras fronteras para seducir a los amantes del interiorismo contemporáneo de todo el mundo.

¿Por qué ahora PEROBELL? Porque detrás de una gran marca hay personas. Y circunstancias, dificultades, alegrías... pero, sobre todo, hay un fondo de ilusión depositado en cada pieza con la pequeña etiqueta roja. El orgullo de una forma de entender el diseño que pasa por la calidad productiva y la seriedad del servicio. Vuelve un clásico. PEROBELL vuelve.

Marcel Benedito

We believe in a new way of producing, slow growing and sustainability as a way to connect with our customers and local supliers.

^{EN} Time is the best ally of a project. Nothing helps more than time to develop an idea, a trajectory, a legacy. Perobell was founded in 1978 and based on know-how and a passion for design, it managed to prosper and evolve. To metamorphose when necessary. To return to the origin when time dictated it. Perobell has known how to adapt to the circumstances, to build a long-term story and to recover his history.

A story in which love for detail, well done and quality have been the roadmap to follow. A history that has always been marked by the search for excellence. This search must continue to continue being what it was, what it is and will be in the future. A synonym of quality and reliability. A company that provides solutions to the habitat from honesty and responsibility with resources and technology without forgetting the tradition that has brought us here.

Perobell does not seek to produce following passing and outdated fashions, but pieces of timeless and eternal beauty, which time knows how to treat well. Products that provide differentiation and practicality to society. Products designed to last, that travel back in time with their owners. We believe in a way to produce and grow slowly and sustainably as a way to connect with our local customers and suppliers. Perobell has a time commitment.

^{ES} *El tiempo es el mejor aliado de un proyecto. Nada ayuda más que el tiempo a desarrollar una idea, una trayectoria, un legado. Perobell fue fundada en 1978 y a base saber hacer y pasión por el diseño logró prosperar y evolucionar. A metamorfosearse cuando fue necesario. A volver al origen cuando el tiempo lo dictó. Perobell ha sabido adaptarse a las circunstancias, a construir un relato a largo plazo y a recuperar su historia.*

Una historia en la que el amor al detalle, a lo bien hecho y la calidad han sido la hoja de ruta a seguir. Una historia que siempre ha estado marcada por la búsqueda de la excelencia. Esa búsqueda debe continuar para seguir siendo lo que fue, lo que es y será en el futuro. Un sinónimo de calidad y fiabilidad. Una empresa que aporte soluciones al habitat desde la honestidad y la responsabilidad con los recursos y la tecnología sin olvidar la tradición que nos ha traído hasta aquí.

Perobell no busca producir siguiendo modas pasajeras y caducas, sino piezas de belleza atemporal y eterna, de la que el tiempo sabe tratar bien. Productos que aporten diferenciación y practicidad a la sociedad. Productos concebidos para durar, que viajen en el tiempo con sus dueños. Creemos en una forma de producir y crecer de forma lenta y sostenible como una forma de conectar con nuestros clientes y proveedores locales. Perobell tiene un compromiso con el tiempo.

Pensi Design Studio

EN The studio was set up in 1984 in Barcelona's Gothic quarter, specialising in furniture and lighting design, the visual image of its products and staging for different types of events. In 2007 the team moved to a new space in Barcelona's Olympic Village, overlooking the sea.

"Our working method is characterised by intensive communication between the team and their clients throughout the design phase, from the initial idea to the final product, in a relaxed and creative environment".
